MEASURING DREAMS FOR BUILDING FUTURE

Some ideas stand the test of time. We find remnants of the same process throughout the history of our civilization. We transform thoughts into concepts, ideas and reality. Like the idea of a soft and cosy kitchen: a seductive refuge with simplicity, rich contents and evolved, sustainable forms. A simple and sober place with a very intimate atmosphere, where design traces a person's movements. Simply and softly. This is the idea. Now it is a reality.
